May 15-17 2009	58	24	18

These surveys were conducted on the telephone by trained interviewers in all states of Australia and in both city and country areas. Telephone numbers and the person within the household were selected at random. The data has been weighted to reflect the population distribution. The latest survey is based on 1,155 interviews among voters. The maximum margin of sampling error is plus or minus 3 percentage points. Copyright at all times remains with NEWSPOLL.
